**REQUEST FOR CERTIFICATE OF CORRECTION
UNDER 37 C.F.R. 1.323
APPLICANTS' MISTAKE**

Sir:

Transmitted herewith in duplicate is PTO Form PTO/SB/44 - Certificate of Correction for the above-identified U.S. Patent correcting the Applicants' mistake as shown in the enclosed Certificate of Correction form.

Since this mistake is clerical, typographical, and/or minor, and the proposed correction does not involve changes that would constitute new matter or require reexamination, Applicants respectfully submit that issuance of a Certificate of Correction is in order. Since this error was due to the Applicants' mistake, Applicants submit a fee in the amount of \$100.00. Any deficiencies are hereby authorized to be charged to our Deposit Account No. 50-3698.

REMARKS

Applicants respectfully submit that the mistake to be corrected is clerical, typographical, and/or minor, and the proposed correction does not involve changes that would constitute new matter or require reexamination. This change renders the corrected portion of the specification consistent with FIG. 2 and with the applicable uncorrected portions of the specification and drawings.

Proposed corrections to the specification:

The paragraph beginning on page 12, line 8 will be amended as follows:

As shown in FIG. 2, ~~the CSS in~~ the ALL-IP network of the present invention comprises a MS (Mobile Station) 21 that is compatible to a media (voice, image, moving image data) standard that is supported by the ALL-IP network, a RAN (Radio Access Network) 22 for controlling wireless resource of the MS 21 and wireless traffic, controlling handoff, realigning data from/to a packet network 25 based on a request of the MS 21 to have interface criteria, and providing the realigned data to the MS 21, a CCF (Call Control Function) 23 for controlling a call between the RAN 22 and a CSS 24, and the CSS 24 for providing SA setup function for voice processing and commonly managing the mobility management function, the QoS management function, the service management function, the authentication and authorization function and the accounting function for the MS 21 by using a common subscriber database.

Prompt and favorable consideration of this Request is respectfully requested.

Respectfully submitted,
